OUR MISSION AND VISION

KO eHealth is a dedicated, Indigenous-led service provider, helping communities access virtual care services for over 20 years.

KOeHealth.ca

WHAT WE DO

KO eHealth is on a mission to provide holistic, culturally appropriate services for the First Nation communities that we serve. We are committed to working alongside our community partners to ensure the best possible outcomes for all clients.

Clinical Services

This includes managing scheduled consults and providing direct support for any urgent or emergent services. With our specialized team and virtual care services, we are dedicated to improving the overall well-being of all our clients.

Educational Services

The KO eHealth Team offers refreshers and training on the scheduling systems, while our Informatics Educator provides weekly training for nurses and equipment users to ensure the highest quality care through virtual services.

Technological Services

We are proud to offer virtual care access to over 27 of Ontario's most remote First Nations communities in Northwestern Ontario with Virtual Care Technology and Units and videoconference packages to a total of 51 sites.

Special Programs

Through the NAN Hope program KO eHealth is able to provide virtual, holistic, and rapid-access to virtual mental health services. These services are available 24 hours a day, 7 days a week, 365 days a year, through toll-free telephone, webchat, text message, and Facebook Messenger.

In addition, to our virtual mental health services, KO eHealth also a Tele-Ophthalmology program, available to all sites that have virtual care. The Tele-Ophthalmology programs offers vital eye examines essential to people with diabetes and other chronic conditions. As well, we support the e-consult program, an essential program created to connect community members and clients with nurses and doctors to use to get faster advice for more personalized care plans.

STATS/ FACTS

In 21-22 FY, there were 2809 completed telemedicine appointments in KO eHealth's affiliated Room-Based sites. These appointments covered 33 therapeutics areas of care. The top 5 therapeutic areas of care were; mental health, primary care, physical medicine and rehabilitation, addiction services and nephrology.
